# HADZABE

TANZANIA

1,500 Hadzabe live in Tanzania

Access is difficult because they live in the remote bush

The Bible has not been translated into their native tongue

Only two of every 100 Hadzabe are evangelical Christians

## OBSTACLES TO THE GOSPEL

Hadzabe are hostile to modern influence and are known to assault outsiders

They speak their own language, making communication difficult

They live remotely, at the edge of the Serengeti

## AC OUTREACH TO THE HADZABE

Our Tanzanian churches have a vision to reach the Hadzabe

There are a few Hadzabe that speak their language, Swahili

Our leaders are willing, praying and waiting for God to make a way
